SBNFA Capital Campaign We're Expanding the Big Bear Discovery Center!!

Our new Hall of Discovery is built and we're in final phase funding to create the ultimate visitor experience! Through interactive state-of-the-art exhibitry, visitors will be able to discover mountain geology, ecology of the Big Bear Valley, its earliest inhabitants, followed by the settlement "boom and bust" era and ending with modern resource use and stewardship reinforcement. The main attraction will be a 22' mountain featuring a microcosm of the forest educating visitors on conservation and education. The Discovery Center will become a one-of-a-kind fun environmental learning Center - Join us Today!!
